

Woodend Membership Status Report 2023/24

A summary of the current membership for 2023/24 is provided below. As can be seen, membership numbers are down overall on 2022/23 but still in a healthy position. Bowling has seen a slight increase in numbers, whilst tennis has had a reduction of 49 members. The majority of the loss of membership has been driven by a loss of junior and mini tennis members.

With the appointment of a new Tennis Coach there is a great opportunity over the coming year to attract new members and encourage more juniors to join and become active in the teams. It is an exciting time for Woodend and we are hopeful that 2024/25 will see membership numbers increase again.
